**Section F : Comprehension (10 marks)**

**Read the following passage carefully.**

Hammerhead sharks are no ordinary sharks. Their heads are long and flat, with a wide staring eye on each side. They allow them to see better than most other sharks. Their bodies are long and sleek, with fins that push them easily in the sea. Hammerhead sharks use their oddly-shaped heads to improve their ability to find ~~the~~ prey.

5

Some hammerhead sharks live in shallow waters near the coast. Others can be found in deep water far from land. Hammerheads are carnivores. They eat fish, squid, crabs, octopuses, stingrays and even small sharks. It can grow up to 6 metres in length and weigh up to 450 kg.

There is one thing special about the hammerhead shark. It does not use its nose for breathing. Instead, it breathes through its gills. With its keen sense of smell, it can detect a single drop of blood in the water, even from very far away.

10

Most people do not understand how valuable sharks are. Hammerhead sharks are facing the risk of becoming endangered. They are killed because of their fins which are used to make shark fins soup. Let us stop eating shark fins soup. We can all help to save the sharks!

**Read the passage below and answer the following questions.**

During the last June holidays, my parents, brother and I participated in a famine camp. For thirty hours, we had little to eat and drink. My parents had signed us up for the camp to allow us to experience how people in poorer countries live.

When the camp finally ended, my brother and I were relieved and joyful. "No more growling stomachs!" my brother exclaimed. We arrived home, looking forward to a sumptuous meal that we thought Grandmother would prepare. However, all that greeted us was a pot of plain white rice. 5

"Is that all?" my brother asked in disbelief. Grandmother did not say a word.

After all of us had sat down around the table, I handed the first plate of rice to Grandfather and the next plate to my mother. When I offered my brother the next plate, he would not take it. My brother was torn between eating something he disliked or risked going hungry. He could not decide. 10

"Up to you. It's this or nothing," my father said firmly. Reluctantly, my brother took the plate from me. Finally I scooped some rice for myself. I missed the fragrance of the sweet, steamy rice. It wafted into my nose. I had not had such a generous amount in the last thirty hours. 15
